800-443-6343

Arterial

Chromatech

- Index: 21.5
- With Plasdoform - Dodge's patented embalming breakthrough
- Contains its own humectant, soluble, not animal-based
- With the exclusive Chromatech dye system, not available in any other arterial

Item #: 109001, 109016 (Pink), 109028 (Tan)

Introfiant

- Index: 30
- Preserves bodies treated more than 24 hours after death occurs
- Penetrates refrigerated and frozen bodies, putrefied tissue
- Embalms bodies with sub-normal albumen and protein content
- Halts putrefaction, treats gangrene, and cancer circulation-resistant tissue
- Will not "burn" or "leatherize" the skin

OTC Includes above benefits plus:

- Bleaches jaundice discolorations, blemishes, non-dye formulation

Dynachrome includes above benefits plus:

- Bonds lifelike, non-fading blood-glow color to tissue proteins

Item #: 105015 (OTC), 105023 (w/Dynachrome)

Metasyn

- Index: Accelerated: 24 Firming: 30 Metasyn 35: 35 Normal: 20
- All purpose arterial with monitored firming rate
- Leaves tissue pliant with fine textured skin tone
- Antimetabolite action dispels jaundice and postmortem discolorations
- Preserves completely with gentle, progressive firming and natural tissue plasticity

Item #: 120014 (Normal), 121011 (35), 121012 (Firming), 122010 (Accelerated)

Plasdos

- Index 25 (Plasdo 25) and Index 18 (Plasdopake)
- Monitored firming
- Releases formaldehyde content as needed
- Clot dispersal, rehydrates tissue cells, penetrates cell membrane
- Restores lifelike plasticity
- Plasdoform base peptizes and diffuses clots clumped cells, and nutrient gels
- Imparts natural translucence to the skin, dispels dull putty-grey color
- Water soluble formula, contains no emulsified animal fats
- Won't settle out of suspension and block circulation
- Disinfects as it preserves
- Halts decomposition
- Permits fast, trouble-free injection, no complex procedures

Item #: 107020 (Plasdo 25), 107011 (Plasdopake)

Regal

- Index: 30
- Dependable firming in the medium to high range
- Controlled release of preservative
- Natural cosmetic effect
- Water-soluble humectant
- Uniformly distributing dye system
- Choose Tan for browner complexions or Regular for lighter complexions

Item #: 107030, 107040 (Tan)

Co-Injection

Proflow

- Dodge's most advanced pre/co-injection chemical
- Works in a wider range of pH and water hardness conditions
- Fully compatible with all Dodge arterial and co-injection chemicals
- A proprietary blend of Dodge Co-solvent, high performance wetting agents, surface tension, rheology modifiers and humectants provide optimum flow, perfusion, and color distribution
- Provides excellent performance in emaciated and medicated bodies
- Free from oils, silicone, lanolin, and other outdated raw materials
- Does not contain formaldehyde, phenol, methanol, IPA, any other toxic, or highly flammable ingredients

Item #: 340040

Rectifiant

- Corrects, conditions tap water for embalming
- Neutralizes chlorine, minerals, and gases
- Counteracts jaundice-activating effects of chemotherapeutics
- Penetrates bacterial "calcium-barrier" defenses
- Stabilizes pH values, prevents chemical precipitation
- Steps up working power of arterials
- Screens out ionic adulterants bypassed by mechanical water softening equipment
- Helps clear postmortem and jaundice discolorations
- Defibrinates clotted blood, softens, helps remove vascular blocks
- Keeps fluid lines in tanks clean

Item #: 320010

Restorative

- Controls dehydration
- Halts syneresis of protein gels
- Rebuilds tissue physically
- Restores cellular hydration
- Prevents tissue shrinkage
- Moisturizes from within
- Velvetizes skin texture
- Restores natural contours
- Stimulates drainage
- Intensifies arterial diffusion
- Restores drawn features
- Water soluble, contains no animal fat
- Treats frozen, refrigerated bodies

Item #: 360016

Edemaco

- Ultra-effective in reducing dropsical conditions
- Reduces swollen tissues without extra procedures
- Does not contain Magnesium Sulfate (Epsom Salt)
- Creates temporary additional firmness

Item #: 506002

Halt GX

- Effective against tissue gas when 16 oz. per gallon is added to embalming solution
- Utilizes Dodge Broadstat
- Recommended for use in cases of drowning, abdominal injury, advanced decomposition, "bubbly drainage", unusual vein distention
- Effective when hypodermically injected into tissue
- Compatible with all Dodge chemicals and all brands of embalming machines
- Formaldehyde-free and Phenol-free
- The only chemical on the market which has been independently inhibition tested for 100% effectiveness in killing active tissue gas
- Can be used 1:1 with cavity chemical for treatment of gaseous cavities

Item #: 247001

Cavity

Halt Cavity

- Index: 21
- Especially effective for septic, gas-producing, drowning, and decomposition cases
- Highly firming
- Contains Dodge Broadstat for gas control
- Eliminates gas production
- Greatly reduces liquid remaining in cavity
- Apple-scented to reduce formaldehyde or decomposition odors

Item #: 245001

Dri Cav

- Index: 21
- Dodge's best-selling cavity chemical
- Excellent for cavities with unusual amounts of liquid or gas, as well as normal cases
- Has a wintergreen odor which helps in overcoming unpleasant odors of putrefaction
- Firms like an ultra-high index cavity - but releases far less formaldehyde into the air
- Greatly reduces liquids found upon re-aspiration

Item #: 225001

Freedom Cav

- Index: 0 (formaldehyde-free)
- Keeps down formaldehyde levels, helps with regulatory compliance, complete user comfort
- Pleasantly scented
- Proven preservation
- Readily detectable firmness
- Gases and liquids won't build up
- Successfully in use for almost 20 years

Item #: 241776

Spectrum

- Index: 5
- Great for allergic or fume-sensitive embalmers
- Fortified with Plasdoform and synergism
- Contains Dri Cav's unique drying components
- First and only truly firming "non-fuming" cavity
- No worries about gas build-up
- Kills viruses, bacteria, and fungi
- Special deodorizing properties...Clean, fresh scent

Item #: 245014

PermaCav 50

- Index: 50+
- Highest index available to modern embalmers
- Petrifies visceral tissue to rock-like hardness
- Positive, rapid-acting, and powerfully penetrative
- Bleaches, cauterizes on contact
- May be used in external applications when wrapped

Item #: 235001
